

Patent Informational Questionnaire

What is the name of your invention?

Describe your invention and the problem it solves.

Is it currently under testing? (Describe where, what who and how?)

Is there presently a provisional patent filed?

Do you have any inventors certificates or patents - granted or pending in any country?

Are you a small entity? (Less than 500 employees in company or company affiliates.)

Is this application being assigned? To whom?

Are you under any agreement to assign this invention?

Do you want this assignment recorded in the USPTO? (Approx \$40)

Does your invention or the inventor fall into the following categories?
(If so it may qualified for expedited processing by the USPTO)

- | | | | |
|----|----------------------------|-----|--------------------------------------|
| 1G | Manufacture Available* | 7G | Recombinant DNA is Involved* |
| 2G | Infringement Exists* | 8G | Special Procedure - Search was Made* |
| 3G | Applicant's Health is Poor | 9G | Superconductivity is Advanced |
| 4G | Applicant's Age > 65 | 10G | Relates to HIV/AIDS or Cancer* |
| 5G | Environmental Quality | 11G | Counters Terrorism* |
| 6G | Energy Savings | | |

Are you going to show your invention at a trade show or to attempt to sell it? When?

Have you used your invention in public or shown it to anyone else? Who and when?

Have you published anything regarding your invention anywhere? When?

How many different embodiments (models) do you have?

Describe the drawbacks, inadequacies limitations, requirements, or specific complications that now exist in the prior art.

Regarding this invention and field of art, describe how things have been done traditionally in the past?

Describe what you think are the new and novel concepts of your invention?

How urgent is the filing of this patent?
